## DETAILED ACTION

### *Priority*

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Shimoda (USP 5,216,351). See figure 1 and column 2, lines 1-6. Shimoda discloses a voltage regulator (10), a switching regulator (11) integrated on a single substrate (see column 2, lines 1-6), with external supply voltage (1), an internal connection (Vsw) in the circuit for feeding the supply voltage from the voltage regulating circuit (10) to the switching circuit (11).

### *Allowable Subject Matter*

4. Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. None of the cited prior art discloses a switching

circuit that is electrically isolated from the voltage regulating circuit that is on the same substrate or integrated circuit.
